Subject: Re: TPC Incident air monitoring

Thanks Jillian.

For the EPA POLREP, I'm primarily looking at the info up to 12/13, when we demob'd.

Thanks

Adam-

I have updated my summary excel spreadsheet that I started maintaining recently of all of our air monitoring (and have a tab of a summary of CTEH's as well pulled from their project site). Please see the attached. I have the TCEQ's tab updated as of 12/19/2019 (I will have up to 12/23/2019 this afternoon updated (we just got those logs this morning from our contractors weekend work).

We have moved to just one contractor air monitoring team per 12 hour period (two 12-hour shifts daily with 2 people on each shift) and have our regional teams on standby if needed.

I can send you a more updated summary spreadsheet once I get through the data this afternoon. I have CTEH's summary current as of yesterday's data included in this spreadsheet.

Thanks,

Subject: TPC Incident air monitoring

Good morning Hope and Jillian,

Hope your off relaxing with family and friends. This isn't urgent, as I'm just doing my next POLREP for the Site.

I'd like to include some info about the TCEQ air monitoring in the communities by date, if you could share some summary if it.

Thanks
Adam
